The present rates of Twin Valley Water Company became effective on April 1, 2007, pursuant to Resolution No. 92-07-093.

Assembly Bill 2995, in adding Section 4019.10 to the California Health and Safety Code, directs the Department of Health Services (DHS) to charge the utilities within its jurisdiction for all operating costs. The legislation also authorized these costs to be passed on to those utilities' customers. Twin Valley Water Company, Inc. has duly established the required Water Quality Memorandum Account (WQMA), and recorded there in the amount of \$ 9857.85 representing expenses resulting from drinking water regulations, including water sampling, testing, reporting, and treatment costs paid by the company.

Twin Valley Water Company, Inc. requests permission to recover the above charges from its 90 customers by assessing a four-month surcharge of \$ 27.38 one-time surcharge of \$ 109.52 to each customer's bill spread over four months at \$27.38 surcharge per month. Workpapers justifying this charge have been provided to the CPUC Water Branch staff. This filing is made under the provisions of General Order No. 96-A.

Twin Valley Water Company, Inc. has given public notice of this request by publishing a notice in a Mailer to all Customers. A copy of the notice is attached. This filing will not cause withdrawal of service nor conflict with any other schedule or rule.

NOTICE TO CUSTOMERS

December 1, 2007

Twin Valley Water Company hereby notifies the public that it has requested authority from the California Public Utilities Commission to impose a one-time surcharge of \$ 9857.85. The increase is for the purpose of passing on to customers the Department of Health Services (DHS) fee assessed/Billed to Twin Valley Water Company from the December 2003 to November 14, 2007. By adding Section 4019.10 to the Health and Safety Code, Assembly Bill 2995 authorizes utilities to pass the operating costs of DHS and Environmental Protection Agency's adopted National Primary Drinking Water Regulations for water testing and to maintain standards under the Surface Water Treatment Rule to its Customers. The resulting rates would not result in a rate of return in excess of that last found reasonable for Twin Valley Water Company.

To recover the assessed expenses, the water system has requested a one-time surcharge of \$ 109.53 per customer. Customers will see this, or a Commission approved charge, on four monthly bills of \$ 27.38 soon after Commission approval has been obtained.

Customers who would like to call the Commission's attention to any problems concerning their water service, or who would like to provide any other information or comments regarding this requested increase, should write to the Commission at the following address:

California Public Utilities Commission
Water Branch – Room 3106
505 Van Ness Avenue
San Francisco, CA 94102

Comments should mention that they pertain to Twin Valley Water Company and must be sent no later than twenty (20) days after the date of publication or receipt of this notice.

Should you have any questions please call Steve Havens at Twin Valley 408-776-0511.
