# National Theatre for Children Program

- Since 2010 Suburban has sponsored the National Theatre for Children to perform a ½ hour play focused on water conservation, pollution, and how kids can do their part to save water
- Each year, approx. 20 schools (10,000 students each year) in Suburban's service area receive the program

## Program Overview

### THE AQUA LEAGUE AND THE DROUGHT DILEMMA

*The Aqua League and the Drought Dilemma*

Student Workbooks and Teacher Guide

The National Theatre for Children uses professional actors who perform an action-packed adventure combined with high energy comedy to teach students educational messages through a fun experience.

*The Aqua League and the Drought Dilemma* features two professional actors who play a variety of characters in a 25-minute program. Students learn about water conservation with the help of characters like *The Watercooler*, *Chef Tara Misu*, *Carp Kirschner*, *Thunderstorm* and *The Drought*.

Performances are performed live in school for K thru 6<sup>th</sup> grade students. Each show includes grade appropriate workbooks for each student, comprehensive teacher guides and classroom posters.

# Feedback from Customers/Schools

Teachers have the opportunity to comment on the program – we receive a report at the end of each season that includes the teachers responses.

“This was an awesome experience for the students! Speaking with them afterwards, they couldn’t stop talking about how good and funny the actors were! AWESOME!”

*Principal, Foster Road Elementary School, La Mirada, CA*

“I love that each year you have a different theme to help cover the topic of water conservation. Even though I am a teacher, my own children go to my school and at home they have been talking about conserving water.”

*4<sup>th</sup> Grade Teacher, Escalona Elementary School, La Mirada, CA*

# Feedback....

“My students truly enjoyed today’s presentation. It was informative, and my class readily made connections to our current events lesson about the drought in California. Thank you.”

*6<sup>th</sup> Grade Teacher, Gardenhill Elementary School, La Mirada*

“The show was a wonderful way to teach the students about ways to save water. It was engaging and also taught students a valuable lesson about water conservation.”

*2<sup>nd</sup> Grade Teacher, Lassalette School, La Puente*
