LARKFIELD AREA:
 Help Reduce Water Use by **25%**

MANDATORY
TWO DAY PER WEEK
WATERING SCHEDULE

New rules from the State of California request a **25% reduction in water use** for California American Water customers in the **Larkfield area**. Reducing your outdoor water use is one area where small changes can result in big water savings! Please do your part by adhering to the mandatory watering schedule.

Let's Keep Conserving!
 Even though we're all trying, our Thousand Oaks water system isn't achieving the state-ordered goal.

Conserving is Better Together
 California American Water is here to help you with FREE Water Wise House Calls.

Leak Detection
 We will help you identify leaks inside and out. Leaks waste water and money.

Monitoring Your Meter
 We will show you how to monitor your water meter to find possible leaks and reduce your water use.

Schedules & Tips
 We will help you with a customized irrigation schedule and water-savings tips. We will also provide free tools like showerheads, hose nozzles and more.

Newspaper and Magazine Ads

Our Ventura County District water system is one of the few that isn't achieving the statewide conservation goal.

California American Water is here to help. Use these tips to get you started this spring.

For Your Lawn:

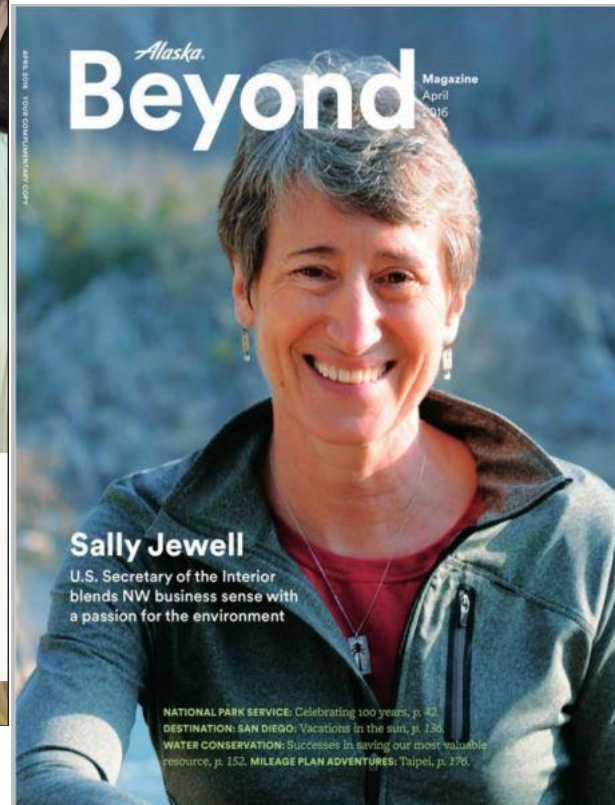

- Set your lawn mower to a higher height setting. Longer grass keeps the soil moist.
- Aerate your soil at least once a year to help water penetrate deeper into soil.

For Your Plants and Trees:

- Install drip irrigation so water only goes where it is needed.
- Use mulch and compost to help retain water so irrigation is needed less often.

For more tips and information, visit ConserveTogether.com

Thank You for Doing Your Part

Your water conservation has helped keep parks open during the drought. Through your cooperation, local parks have been able to keep their grasses green and safe for your recreational use.

For more conservation information, please call (916) 568-4201 or visit www.californiaamwater.com.

ConserveTogether.com Drought Updates Rebates & More

It Was Great Meeting You

Thanks for stopping by our California American Water conservation booth at the Ralphs grocery store the weekend of April 9 & 10. We appreciate your interest in learning more about how to save water since we're still one of the few communities in California not meeting our state-ordered conservation goal. By providing your email address, we will send you occasional emails providing helpful water-saving information and other water-related updates. You can unsubscribe at any time by clicking "unsubscribe from this list" at the bottom of this or any email.

Get FREE Expert Advice

California American Water offers free Water Wise House Calls, where a conservation specialist will visit your home to evaluate current water use and create a personalized plan to help you save water indoors and out. The visit will last anywhere from 20 minutes to one hour. To schedule your free visit, call (805) 498-1266 x2809.

New Water Rules

1. No watering during or for 48 hours after rain.
2. No washing down sidewalks and driveways.
3. No runoff onto sidewalks and driveways.
4. Hoses must have an automatic shut-off nozzle when washing vehicles.
5. Fountains must recirculate water or use recycled water.
6. Restaurants: only serve water to customers on request.
7. Hotels and motels: provide guests with the option to not have towels or linens laundered daily; prominently display notice of this option.

For a complete list, visit our [Drought Update page](#).

Save Water Outdoors with Free Devices & Money-Back Rebates

More than half of water is used outdoors. Cut your outdoor water use with help from water-saving devices and upgrades. California American Water provides **FREE** devices and money-back rebates that will help you save water during this historic drought.

Money-Back Rebates:

Purchase one of the following water-saving devices, and you can save water and get a money-back rebate*:

- Weather-Based Irrigation Controller: up to \$80 back
- Soil Moisture Sensor System: up to \$80 back
- Rotating Sprinkler Nozzle: up to \$4 per nozzle (min. of 15)
- Rain Barrels: up to \$75 each (max. of 4)
- Pool Covers: up to \$50 for manual; \$200 for mechanical

FREE Devices:

Small changes can make big changes, too. These free devices can also help you save water outdoors:

- Automatic Hose Nozzle
- Moisture Meter

DROUGHT ALERT

Save Every Drop by Turning Off Sprinklers After Rain

We're happy to hear rain is in the forecast, but the drought continues. Let's work together to save every drop we get. The State Water Resources Control Board's drought regulations ban outdoor watering for 48 hours after measurable rain. **Please adjust your irrigation controllers accordingly and refrain from hand watering for 48 hours after any rain.**

If you need help adjusting your irrigation system, click [here](#) to find the operating manual for most brands and models of irrigation systems.

For more information about the drought and to learn about our conservation rebates, programs and devices, visit our [site](#).

Customer Comments

“I'm just fed up with these liberal politicians. This state is such a mess. We have serious problems and these morons just can't stop with their liberal agenda. There is no global warming, we don't need a bullet train (that really isn't a bullet train), this state is being overrun by illegals, etc... it goes on and on. I'm so pissed I think I'm going to move somewhere people haven't lost all common sense. This state is a perfect example of why this country is going to hell.

Anyway, how is the ground water situation?”

- on “Let's Keep Conserving”

“I think your response was clearly ridiculous. Rebates are a hassle and you know it. You hope most people don't apply for the rebate or they don't cross a T or dot an I so they're rebate can be denied. It's like the grass rebate. Everyone I know is still waiting for a check. The big guys have been paid but the rest wait. Don't respond. You can eat the rain barrels.”

- on their refusal to apply for the \$75 rain barrel rebates

“This is ridiculous. If you were really serious about providing drought relief steps, you'd offer delivery of mulch and barrels. Just more corporate window dressing.”

**- on Mulch Madness event and
CAW's lack of delivery service**

“How about we start with you guys!!! City of TO, CalTrans and LA dept. of water power? You guys always put it on the public, you guys should set the example !! LA city just dumped hundreds of thousands gallons of water down the street a couple weeks ago, CalTrans continues to water freeway slopes during the middle of the day. Water conservation should start with local government operations.”

- on the 25% water use reduction
