

Supplier Diversity and Disadvantaged Communities: Easy is Right

A 501(c)3 Non-Profit Organization

Leveraging Supplier Diversity for Economic Empowerment In Underserved Communities

A 501(c)3 Non-Profit Organization

Our Mission

- **Our mission is to use Supplier Diversity initiatives as an engine for economic development in economically underserved communities**
- **We are dedicated to expanding business opportunities for women, minority and service disabled veteran business enterprises**
- **The ultimate outcome is to add economic value to the regional supply chain while increasing economic opportunities for the diverse business community.**
- **We believe that diverse business development is a key component of reducing poverty, unemployment, increasing wealth, and integrating American society.**

Why Supplier Diversity?

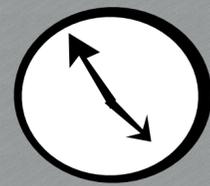

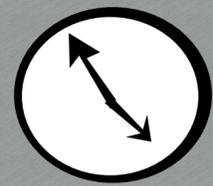

Supplier diversity

A **Supplier Diversity** program is a proactive business program which encourages the use of [minority-owned](#), [women owned](#), [veteran owned](#), [LGBT-owned](#) ^[1], [service disabled veteran owned](#), [historically underutilized business](#), and [Small Business Administration](#) (SBA)-defined small business concerns ^[1] as suppliers. It is not directly correlated with [supply chain diversification](#), although utilizing more vendors may enhance supply chain diversification. Supplier diversity programs recognize that sourcing products and services from previously under-used suppliers helps to sustain and progressively transform a company's [supply chain](#), thus quantitatively reflecting the demographics of the community in which it operates by recording transactions with diverse suppliers.
